With reference to channeling the subscriptions through Bear Stearns - our funds can be cleared by Bear Stearns if the client accounts are euroclearable. This means that the subscription orders can be placed via Bear Stearns and in turn Bear Stearns internally presents these orders to Euroclear in Belgium. Bear Stearns will have to provide Euroclear with the ISIN codes of the respective funds, which are provided above for your reference. The registered shareholder in this investing procedure will be Euroclear c/o Citvic Nominees.

We greatly value your confidence in our funds and are always here for any assistance that you may require. Please do not hesitate to contact us for any additional information.

Best regards,
